MEMORANDUM FOR: [REDACTED]

25X1

SUBJECT : Security Violation

1. I have been advised by the Office of Security that you have been charged with an Open Safe security violation which occurred on 24 June 1973. According to the records of the Office of Security, your last violation (out of a total of three during your entire Agency career) occurred on 4 January 1973, hence, this 24 June incident classes officially as a "second violation."

2. Under the provisions of [REDACTED] a second violation requires a written reprimand and warning plus security check duty for one week. Will you therefore please consider this memorandum -- as amplified by our oral discussion -- as the reprimand in question and would you please take security in this office for the work week beginning 1 October 1973.
